# AUDIS G. MERCADO

Software Quality Assurance Engineer

### CAREER OBJECTIVE

Current student focused on developing skills in technical support and software development to obtain my master's degree in Computer Science. 7+ years in customer service roles have led to strengthened skills in customer service, teamwork, time management, and problem-solving.

# EXPERIENCE

SOFTWARE QUALITY ASSURANCE ENGINEER (INTERNSHIP)

Medtel.com / Old Greenwich, CT / 2022 - 2023

- Find, report, and document any backend bugs to ensure a quality product for the customer on its release date
- Create test automation features to validate user inputs such as create, update, and remove
- Manage multiple features to deploy different testing scenarios using GET/POST/PUT/PATCH/DELETE
- Constant communication with the development team to ensure tickets are done before the next software update

INBOUND VENDOR RECEIVE/CUSTOMER RETURNS ASSOCIATE Amazon / Easton, PA / 2021 - Present

- Consistently meet or exceed productivity quota of receiving, scanning, and processing 1000 items per day
- Verify merchandise and products are packed in a neat and secure manner to ensure customer satisfaction
- Process customer returns by replacing damaged, expired, and products labeled incorrectly to improve company's warehousing procedures and quality protocols

## SALES FLOOR SUPERVISOR

Kmart Corporation /Aquadilla, PR / 2013 - 2019

- Planned and coordinated special activities during high movement periods such as weekend sales, seasonal clearance, and special promotions to achieve store's \$80k-\$100k daily sales goals
- Prevented accidents through a high hazard monitoring and detection protocol saving the company \$10k per accident
- Able to quickly troubleshoot all system issues with real-time resolutions following current operating policies
- Promoted twice to achieve supervisor level due to exemplary performance as a Cashier and Hardlines Customer Service

HUMAN RESOURCES ANALYST (INTERNSHIP)

Town Hall /Isabela, PR / 2016 - 2017

- Improved efficiency of hiring process by updating out-of-date job descriptions
- Managed the staffing process, including recruiting, interviewing, and hiring candidates for essential role departments such as Finances, Human Resources, and Nursing
- Ensure the organization's compliance with local, state, and federal regulations
